DETAILED ACTION

1. This Office Action is the answer to the communication received on 1/27/2006, which paper has been placed of record in the file.
2. Claims 1-54 are pending in this application.

Claim Rejections - 35 USC § 112

3. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being unclear for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

This claim is directed to a system; it should contain more than one subsystem, or modules, or components; however, ONLY ONE COMPONENT IS CLAIMED – that is: a navigation guide.

4. The examiner also respectfully submits that there is a restriction on patentably distinct species, as shown below:

Election/Restrictions

5. This application contains claims directed to the following patentably distinct species of the claimed invention:

- Species I: claims 1-15, 30-42, and 49-54 are directed to a navigation system, US classifications 340/995.19.
- Species II: claims 16-29, and 43-48 are directed to a method of use said navigation system, US classification 701/202, 208.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merit to which the claims shall be restricted if no generic claim is finally held to be allowable.

Art Unit: 3661

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicants must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
